Université de Liège

Département Agro-BioChem
Chimie Analytique (Prof.G.Lognay)

Gembloux, March 25th,2015

Letter of recommendation

I undersigned Prof. Dr.Ir. Georges C. Lognay, head of the Analytical Chemistry Laboratory, Agro-Bio-Chem Department (University of Liège – Gembloux Agro-Bio Tech, Belgium) certify that Mr.Julien Boulay has undertaken a series of analytical investigations (GC-MS) in my laboratory. He tentatively tried to identify long chain hydrocarbons in footprints of necrophagous diptera. The main issue was to bring out a potential aggregation behavior.

It seems to me that Julien Boulay is a motivated person with good skills in scientific research and that he shows ability to fit into a team.

Therefore I issue a favorable opinion.

Prof.Dr.Ir. Georges Lognay
